

I - BUDGETING

1. IMPROVEMENT OF BUDGET MANAGEMENT

1.1 Improvement of Reporting on Annual Budget Execution towards Controlling Authority

Responsible Unit: Budget Department (Engaged Stakeholders: Spending Institutions, State Audit Office, Parliament of Georgia)

Performance Criteria: Report on State Budget Execution in and Overview of State Budget for 2016 have been submitted to the Parliament of Georgia within the deadlines defined in the legislation of the country and they comply with the requirements defined in the legislation of the country by covering reports on results achieved within this context. Mechanisms have been introduced for a follow-up on the findings of the State Audit Office.

Timeframe: January-December

Progress: State budget execution annual report of 2015 was submitted to the government on 30 March of current year. Together with the annual report, according to the requirements of Government Resolution №144 of March 30, 2015 “On Some Measures of Reporting and Strengthening of Accountability in the process of Public Finance Management”, “The State Audit office’s report of the possibility of taking in account the comments and recommendations during the budgetary process on the State Audit Office’s annual report on the execution of the 2014 State Budget of Georgia” Government Action Plan (Approved by the government with a decree №2836 December 30, 2015) performance report was sent.

In accordance with the requirements of Government Resolution №144 of March 30, 2015 “On Some Measures of Reporting and Strengthening of Accountability in the process of Public Finance Management”, and in accordance with the Decree of Georgian Government №1823, 9 September, 2016 “Action plan of possibility of taking in to account comments and recommendations during the budgetary process, introduced in the report prepared by State Audit office, on the State Budget Execution Annual Report of Georgia in 2015” was developed and approved.

Note: In process

1.2 Mid-Term Expenditure Framework (MTEF)

Responsible Unit: Budget Department, Fiscal Forecasting Department (Engaged Stakeholders: Spending Institutions, State Audit Office, Government of Georgia, Parliament of Georgia)

Performance Criteria: Original draft and updates of the Basic Data and Directions (BDD) Document of the country have been drafted for 2017-2020. DBB has been submitted to the Government and Parliament of Georgia within the deadlines defined in the legislation of Georgia. It complies with the requirements of the legislation. Guidelines on the Costing have been endorsed on the grounds of the lessons learned. Action Plans of the Line Ministries comply with the methodology developed by the Ministry of Finance of Georgia. Mid-term Plans are compatible with parameters of fiscal policy defined in the Organic Law. Mid-term Plans have been endorsed by Line Ministries of Georgia. They feed into the National Mid-Term Action Plan by envisaging the respective costing and adhering to the Guidelines on Costing.

Timeframe: February-December

Progress: The final version the document of Basic Dimensions and Directions of the country for 2016 – 2019 has been prepared, which includes information on the main directions of local budgets and is allocated at the Ministry of Finance's website.

Ordinance of the Government of Georgia “about measures to be taken for implementing documentation on main data and directions of country” was prepared and approved with decree №104 of 24 February, 2016.

Annexes forms has been developed, according to which to the purpose for preparation of documentation about the Basic Dimensions and Directions of country information must be submitted to the Ministry of Finance step by step. Among them, renewed attachment of medium-term action plan for the 2017-2020 is introduced for the ministries, which includes information about programs / subprograms/ events to be implemented in accordance with the priorities of the state budget: Description and purpose, the expected medium -term and final outcomes, evaluation Indicators (Basic indicator, the target rate according to years, implementation, possible risks, probability of failure, as well as information about the program / sub-program / event represents the continuation of the existing policy or the part of the new policy). In addition, for each program / sub-program / event the funding sources are indicated, which, in turn, must conform to the parameters stipulated by documentation of the state budget and of the Basic Dimensions and Directions. In addition, pilot ministries (Ministry of Corrections, Ministry of Labor, Health and Social Affairs, Environment and Natural Resources, Education and Science, and the Ministry of Finance) in accordance with decree, must prepare and introduce the action plan of 2016 in the Ministry of Finance with the renewed format.

With the updated program budget methodology conducting the process of medium-term action plans by the ministries in the working group format is proposed, among them, in the frameworks of public finance management reform of European Union (PFM III) recommendation was issued by the assessment mission, about involvement of high-level management in the medium-term action plan preparation process by ministries and for this purpose, implementing the working groups in all ministries. According to the ordinance, the working group will be chaired by the Minister, while the working group will consist of Heads of Departments / representatives, as well as Heads of Departments / representatives of sub-divisions and other controlled structural units in the relevant direction of policy. Based on the decision of ministry, employee of Budget Department in the Ministry of Finance can be asked to participate in the working group.

On March 28-31, of the current year, meeting were held with the Ministries in order to conduct correctly the above mentioned process and events, which have to be implemented in the current year. The main aspects of preparation of the medium-term action plan and preparation process of the mentioned documentation was discussed.

On June 14-17, of the current year, meetings were held with the Ministries, the first versions of the medium-term action plans, prepared by the ministries, were discussed, among them the existing difficulties and challenges related with the preparation process of action plans. Recommendations were issued on the relevant amendments before the adoption of the mentioned plans.

In accordance with the Budget Code, before the 30 of June, of the current year, revised medium-term action plans were approved, in line with the requirements of the requirements of the updated methodology for the preparation of the program budget. Document for the Basic Dimensions and Directions of the country for 2017 – 2020 was prepared and with the draft of the Georgian Law "On the State Budget of Georgia in 2017" (The first submission) in accordance of the requirements of the Georgian Budget Code was submitted to the Georgian Government on the 23 September, of the current year, with the letter № 04-02/92745.

Medium Term Action Plans with relevant costings prepared by the Mnistries are in line with the State Budget law for 2017 and BDD.

Note: In process

1.3 Annual Budget Drafting

Responsible Unit: Budget Department, Fiscal Forecasting Department, Public Debt and External Financing Department (Engaged Stakeholders: Spending Institutions, State Audit Office, Government of Georgia, Parliament of Georgia)

"Law on State Budget for 2017" with relevant annexes was submitted to the Parliament of Georgia on November 29, 2016 with the Letter #04-02/131395 within the timeframe prescribed by the law.

"Law on State Budget for 2017" was adopted by the Parliament on December 14, 2016 by the Decree №64-იბ, 23.12.2016

Note: In process

1.4 Improvements to the Introduction of Program Budgeting

Responsible Unit: Budget Department (Engaged Stakeholders: Spending Institutions, State Audit Office, Government of Georgia, Parliament of Georgia)

Performance Criteria: Program Budgets defined by the Spending Institutions on the grounds of the updated Methodology on Program Budgeting have been improved. Spending Institutions apply the Methodology on Program Budgeting and Guidelines on Costing while developing Draft Laws on Annual Budgets.

Timeframe: January-September

Progress: For the purpose of more comprehensive management and program budgeting improvements

Work is ongoing with donors, there is planned meetings / seminars at each stage of the budget process with the parties involved.

On March 28-31, of the current year, during the meeting with the ministries issues about major challenges and preparation of program budget based on the updated methodology was discussed. This in turn is related to the medium-term action plans.

On March 15 of the current year, representatives of Dutch Finance and Economy of the National Academy conducted one-day seminar at the Ministry of Finance Academy on "Strengthening the role of institutions in the budgetary process of spending." The seminar was attended by representatives of all ministries and at the seminar, the budgetary process of Georgia was discussed, Dutch experts shared their experience with the budget process, accountability and responsibilities. In the frameworks of the public finance management the current reforms were discussed.

On September 17, of the current year, meeting was held in order to discuss the program budget of the years of 2017 – 2020, the meeting was attended by invited experts of the European Union project, who were assisting in the refinement of the program budget, as well as representatives of Georgian Finance Ministry (among them curators of the relevant ministries) and representatives of other ministries. Existing challenges were discussed, recommendations were given

for further improvement on program budgeting, for the right coordination and implementation of the mentioned process by the representatives from the all sides.

“Law on State Budget for 2017” is in line with the methodology of the program budgeting prepared by the Ministry of Finance.

Note: in progress

1.5 Development of Mechanisms for Selection and Implementation of Capital/Investment Projects

Responsible Unit: Budget Department (Engaged Stakeholders: Spending Institutions, State Audit Office, Government of Georgia, Parliament of Georgia)

Performance Criteria: Methodology for Selection and Implementation of Capital/Investment Projects has been developed, along with the relevant Guidelines on Costing. Referred Methodology will be piloted shortly.

Timeframe: January-September

Progress: Investment Projects Management Guide was prepared and approved by the Georgian Government on the 22 April of the current year with the ordinance №191.

A detailed methodology of investment projects management has been developed and approved with the order of Finance Minister №165 dated on 22 July, of the current year and became the part of the program budget methodology.

Presentation on methodology and roadmap is prepared. Municipalities have sent the list of possible projects for piloting.

Note: In process

1.6 Full Inclusion of Budgets of Local Authorities and Legal Entities of Both Private and Public Laws in the Budget System Regulations of Georgia

Responsible Unit: Budget Department (Engaged Stakeholders: Spending Institutions, State Audit Office, Government of Georgia, Parliament of Georgia)

Performance Criteria: Analysis of problems identified in the process of tax administration; Analysis of presented legislative initiatives; Identification of current vague and dual-interpretation provisions and development of a Draft Law to address the issues; Development of respective amdnemtns to the legislation for capturing key obligations of taxpayers.

Timeframe: January-December

Progress: Georgian Parliament adopted the Law "On Amendments in the Tax Code", it aims to improve the system of tax administration and simplify the process of Tax liability provisions. In particular, according to the law bad tax debts have been written off. (Tax debts accrued before 2011 and sanctions imposed until 2013 are discarded), tax control will have been exercised only by tax authorities and other controlling and law enforcement authorities are prohibited to implement tax control of the legal or natural body. The law also provides the VAT payment deferral period for imported fixed assets. Importer, who is using the fixed assets for the operations, which are taxable with the VAT, will not pay for VAT while importing.

For additional tax revenue mobilization, approach to European Union legislation and for clarifying the certain issues, implementing the draft of Georgian law of "the Tax Code Change" is being proceeded. For special trade zone

arrangement, in order to continue the period of making tax legislation in compliance with the requirements before January 2018, amendments in the Georgian Tax Code was prepared and approved by parliament.

Note: In process

1.5 The income tax reform - growth-oriented tax system (new)

Responsible Body: Tax Policy Department

Performance Indicator: Developing the draft for the related amendments in the Tax Code

Period: January- December

Progress: Georgian Parliament adopted the Law "On Amendments to the Tax Code," which aims to implement the income tax reform. Mentioned Tax Code is based on the "Estonian Model", According to the mentioned reform, taxpayer will pay income tax while profit distribution instead of receiving it, accordingly enterprises shall pay profit tax only in case of income distribution. According to the applied law, company will pay income tax if it gives dividend to partner, also in case of profit distribution any other form, like costs for non-economic activity, representation expenses above the limit, free transactions and other hidden profit distributions. Income tax reporting period is determined by the calendar month and companies, which will be taxed with the new regime, will not have any more to pay prepaid

(advance payment) payment. Implementation of the income tax reform will promote business start-ups and will create favorable conditions for the development, investment growth, and acceleration of economic growth, the accessibility of the financial resources to companies, as well as tax calculation and simplified administration.

Note: In process

5.1 Service Quality Improvements

Responsible Unit: Service Agency of the Ministry of Finance of Georgia – Legal Entity of Public Law (LEPL)

Performance Criteria: Service quality management; Staff training (in quality management).

Timeframe: January-December

Progress: For simplifying the use of electronic services for the users of portal eAuction.ge, guidelines for the use of web-site were updated and placed in the appropriate fields, to simplify the process of searching statistical information about eAuction.ge, the new web-page supplement “statistics” was prepared, through which any interested person can gain the desired statistical information about web-page. Employees are involved in the project of Organization for Economic Policy Research Centre (EPRC) - “Improvement of the quality of service in the existing public sectors and improvement of customer-oriented service”. This considers the provision of existing service improvement in Georgia and providing the customer oriented service through the main principles of design management and mechanisms. In the frameworks of mentioned project, small-scaled study of customers was conducted, which aimed to consider the customer requirements and notes according to the test version of mobile application. Project of expansion of service field is in process (public centers in regions), training for staff to study various graphic programs is finished, and training on service quality management is planned.

Note: In process
